

# Muhammed Swalih

[contact@swalih.dev](mailto:contact@swalih.dev)

I am a full-stack developer, webmaster, system administrator, SEO specialist, and a lot more with a passion for coding and proficiency in an array of programming languages such as JavaScript, PHP, and Python.

My expertise lies in creating responsive and user-friendly websites through my strong foundation in design and development best practices. I also excel in leveraging modern libraries and frameworks like React, Next.js, Laravel, Tailwind CSS, and Bootstrap to engineer robust, maintainable, and aesthetically pleasing web applications.

Communication is one of my strengths, bolstered by my fluency in English and Malayalam, along with a bit of Hindi, enabling me to collaborate effectively within diverse teams and international clients.

## What do I know?

I started playing with code in 2010 making it 12 years now. Owned 100+ projects at one point. Worked with 100s of clients. These are some of the skills that I possess:

WordPress General Knowledge (Best practices, default functions, database structure, etc.)

Plugin Development (Creating custom plugins or extending existing plugins)

Theme Development (Creating custom themes or extending existing theme)

WordPress SEO (Article Ranking, On-page and off-page SEO, Analytics, Keyword Research, Link Building, etc.)

WordPress Security (Security audit, best practices, file & folder permissions, DDoS prevention, Firewall, etc.)

WordPress Maintenance (Plugin updates, theme updates, vulnerability analysis, etc.)

WordPress Hosting (NGINX or Apache servers)

WordPress Backup and Restore (Automate backups)

WordPress Content Management (Regular publish and updates of content)

WordPress UI/UX Design (Designing user friendly, SEO-friendly, accessible interfaces)

WordPress eCommerce (Building and optimizing WordPress WooCommerce stores)

WordPress Speed Optimization

Developing Custom Functions

And more...

## Themes

Default WordPress themes

100+ Themeforest themes

Several custom themes

## Plugins

Yoast SEO

Jetpack

Elementor

Wordfence

WooCommerce

Advanced Custom Fields

150+ CodeCanyon Plugins

Several custom plugins

## Other Skills

Apart from WordPress, in my career I had to work with many technologies, learned multiple programming languages, built and maintained several applications. As an employer, you might be interested in knowing what technologies I am capable of handling.

### Programming Languages

JavaScript

PHP

Python

HTML

CSS

SQL

### OS & Terminals

Windows

Linux (Ubuntu, MacOS)

### CMS

WordPress

### Version Control

Git

GitHub

### Software

Excel, Word, PowerPoint, etc.

Photoshop

### Libraries

React

Next.js

Laravel

Tailwind CSS

Bootstrap

React Native

### Others

Hosting (AWS, DO, Siteground, etc.)

Domain (Cloudflare, GoDaddy, Namecheap, etc.)

CDN (Cloudflare, MaxCDN, etc.)

## Experience

I started working since I was 14 years old as a freelancer. Started learning about technologies, soon knowing about WordPress. Since then, I never took a break.

### Roles

In this period, I have been assigned numerous roles such as:

#### WordPress Developer

12 | years

#### SEO Expert

6 | years

#### Frontend Developer

8 | years

#### Backend Developer

6 | years

#### Full-Stack Developer

6 | years

#### Webmaster

5 | years

#### Content Writer

13 | years

#### Project Manager

2 | years

#### AI Expert

2 | years

#### Website Security Expert

4 | years

#### System Administrator

7 | years

#### Data Analyst

2 | years

### Companies

I have worked with several companies and individuals in my long career. Because it is difficult to list all of them, I am listing some of the most prominent ones:

2010 – 2016

#### Logic Systems (India)

Worked as a web designer, content writer, etc.

2012 – 2014

#### RCT Media (Rajahmundry)

Website and sever management, full-stack development, content writing, etc.
